1. Claims 1-7 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,240,086. Although the conflicting claims are not identical, they are not patentably distinct from each other because:

Regarding claim 1, without the further limitation of determining the allocation of software and controlling of time slot allocations in claim 1 of U.S. Patent No. 6,240,086, it would have been obvious to make the same invention as in claim 1 of the instant application.

Regarding claims 2 and 5, without the further limitation of determining the allocation of software, controlling of time slot allocations, and handling of the channel traffic in claims 2 and 5 of U.S. Patent No. 6,240,086, it would have been obvious to make the same invention as in claim 1 of the instant application.

Regarding claims 3, 4, 6 and 7, without the further limitation of handling of the channel traffic in claims 3, 4, 6 and 7 of U.S. Patent No. 6,240,086, it would have been obvious to make the same invention as in claim 1 of the instant application.

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hluchyj is additionally cited to show the feature of telecommunications traffic interfacing between circuit switch network and packet switch network utilizing digital signal processor and controller similar to the claimed invention.
